

REUBEN NAHOURAII

TECHNICAL SKILLS

Javascript (ES6) / Golang / C / C++ / Java / Python / MySQL / PostgreSQL / HTML / CSS / React / Angular / Node / Express / Ionic / jQuery / Git / Webpack / Bazel / Gulp / RxJS / AWS / GCP

EXPERIENCE

- 03.2019 - Present **Google X - The Moonshot Factory, Full-Stack Engineer (Contract)**
- Worked with product identifying ways to satisfy customer requests leveraging the existing architecture
 - Increased back-end throughput by identifying multithreading opportunities
 - Provided solutions that reduced scope while increasing the feature set offered
 - Designed an asynchronous-first front-end leaning into RxJS and Google Maps API
- 09.2017 - 01.2019 **Whisker Labs, Front-End Engineer**
- Architected, developed, and deployed an Ionic application to App Store and Google Play Store
 - Utilizing AWS microservices, developed a free-tier solution for a new product page
 - Designed and implemented a responsive modular plotting tile with Angular and D3

ENGINEERING PROJECTS

- 2017 **Wandering Wave, Full-Stack Engineer**
A meditation challenge (bit.ly/wandering-wave)
- Designed and developed a real-time gaming UI using web-socket architecture
 - Interfaced hardware with software, facilitating the transfer and subsequent parsing of UDP packets
 - Routed traffic via React-router on the front-end, enabling a dynamic URL and scalable code separation

EDUCATION

- 2018 **AWS Certified Solutions Architect** - Certification of Completion
- 2017 **Hack Reactor—Advanced Software Engineering Immersive Program** - Certification of Completion
- 2017 **De Anza College** - A.A. Degree Systems Programming
- 2004 **Santa Clara University** - B.S. Degree Finance
